*This type of publication is every thing and helped me seeking ahead and much more. It usually fails to charge too much. It is extremely difficult to leave it before concluding, once you begin to read the book.*

## MAKING THE MOST OF YOUR MONEY NOW

Simon & Schuster. Hardback. Book Condition: new. BRAND NEW, Making the Most of Your Money Now, Jane Bryant Quinn, This classic book of solid and practical financial advice has been completely refocused to address new tax laws, new ways of paying for higher education, new forms of health insurance, and the completely new investment climate. As a financial planning tool, the original "Making the Most of Your Money" predicted a change in America's priorities-- away from an obsession with spending and toward a desire to save and invest. The book also foresaw an environment dominated by falling inflation and interest rates. That call was right on the money. The new edition sees yet another shift in financial energies-- a fresh round of serious borrowing, as the boomers start sending kids to college; a desire to save for retirement fast; and an obsession with keeping safe the profits that have already been made. Investing is getting more complex, as more financial products and services come to market and as traditional guideposts change. More than ever, investors need a clear path through the undergrowth. The new "Making the Most of Your Money" is that path. It presents a new blueprint for twenty-first-century success. On investing: The markets will surprise you. Serious investors need a better understanding of asset allocation and how to diversify for global gains while minimizing risk. The new edition presents a variety of investment mixes for different purposes. You'll also find a sophisticated guide to picking superior mutual funds. On paying for college: The entire federal financial-aid program has been overhauled. Much more money is available to middle-class families, making paying for college the art of the possible. This book takes you through all the money sources. On buying a home: The percentage of Americans owning their own homes...
