Junior students will have an opportunity under competent instruction to study Comparative Anatomy and Physiology practically by dissecting various animals. While thus becoming familiar with structures and tissues, they will also acquire dexterity in the use of instruments preparatory to work upon the human cadaver. The apparatus to illustrate the lectures in Chemistry and Chemical Physics is very full and complete. The Chemical Laboratory provides thorough instruction and suitable appliances for the practical study of all branches of Medical Chemistry. In each of the two Laboratory courses required for graduation, namely, Qualitative Chemistry (devoted to the study of chemical changes and incompatibilities), and Analysis of Urine (applied to clinical uses and physiological study), students are taken in sections of limited number for daily drill in the class-room, to direct the daily practice in the Laboratory. Before beginning Laboratory work the student takes a preparatory...
