RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 82 pages. Dimensions: 9.7in. x 7.4in. x 0.2in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1895 edition. Excerpt: . . . about Boulder and Denver from 1873 to 1876, Prof. Henry. Abundant at Denison, Texas, for twenty years, Munson. At least twenty to twenty-five years at Ennis, in north central Texas, Hogan. Thus far it has made but little progress in the timbered region of southeastern Texas. It has not been reported from Louisiana, and there are few indications of its occurrence in the Gulf states. Cultivation, and the transit of cars from western states has caused the species to become abundant in the states that border on the Missouri river--Kansas, Nebraska, Western Missouri (where it was abundant in 1886, Tracy), eastern Kansas, eastern Nebraska and western Iowa. That it was not abundant throughout the plains may be assumed from the fact that in eastern North Dakota the plant is an occasional oddity, Bolley. It seems to have increased in number from the southwest to the northwest. Of its occasional appearance in the United States, outside of the territory indicated, it is reported more frequently from Illinois than elsewhere. Its migration there comes from Missouri and Nebraska, undoubtedly conveyed by stock trains. It seems to have been in parts of Tennessee, according to Gattinger, for thirty years, but has never become a serious pest. From present indications it may be many years till it will become a weed pest in states east of the Mississippi. Upper Missouri. --1839. (Nicollets Northwest Expedition. Charles A. Geyer. ) Upper Arkansas. --1869. (Bristol. ) Ranges from New Mexico to Wyoming...
