DEPOSITION AND CHARACTERISATION OF CRYSTALLINE SILICON

Fraunhofer Verlag Dez 2014, 2014. Taschenbuch. Book Condition: Neu. 24x17x cm. Neuware - The presented thesis will discuss the recent development in the deposition of silicon by atmospheric pressure chemical vapour deposition (APCVD) and the characterisation of these crystalline silicon thin films at Fraunhofer ISE. In the second Chapter a short overview of the process technologies for chemical vapour deposition (CVD) will be given. A general and a simplified model for the silicon deposition will be discussed. Furthermore, the rapid...

Reviews

These sorts of ebook is the best publication accessible. It is amongst the most amazing ebook i actually have read. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- **Jace Gusikowski IV**

This kind of book is almost everything and made me searching in advance plus more. It is actually writter in basic terms instead of hard to understand. You are going to like how the author write this publication.
