Expert Advisor Programming for Metatrader 4: Creating Automated Trading Systems in the Mql4 Language

By Andrew R Young

Edgehill Publishing, United States, 2015. Paperback. Book Condition: New. 252 x 204 mm. Language: English . Brand New Book ***** Print on Demand *****.Brand new and fully updated for the latest versions of MetaTrader 4, Expert Advisor Programming for MetaTrader 4 is a practical guide to programming expert advisors in the MQL4 language. Leverage the latest features imported from the MQL5 language, including object-oriented programming, enumerations, structures and more. This book will teach you the following concepts: The basics of the MQL4 language, including variables and data types, operations, conditional and loop operators, functions, classes and objects, event handlers and more. Place, modify and close market and pending orders. Add a stop loss and/or take profit price to an individual order, or to multiple orders. Close orders individually or by order type. Get a total of all currently opened orders. Work with OHLC bar data, and locate basic candlestick patterns. Find the highest high and lowest low of recent bars. Work with MetaTrader s built-in indicators, as well as custom indicators. Add a trailing stop or break even stop feature to an expert advisor. Use money management and lot size verification techniques. Add a flexible trading timer to an expert...
